$100 Fit Promise Gas/Electric Rebate: Eligible consumers purchasing Frigidaire 30″ or 36″ **front control freestanding radiant electric or gas ranges** may receive reimbursement for up to **$100 for eligible countertop and/or cabinet modifications required to install the qualifying appliance.** To qualify for reimbursements, the new appliance must be a qualifying Frigidaire range purchased from an authorized Frigidaire dealer in the United States during the promotion period. The new appliance must replace an appliance of the same common industry width (30″ or 36″). All modifications must be directly related to installation of the qualifying appliance. Consumers should consult a qualified installer to determine compatibility and installation requirements before purchase.

$300 Fit Promise Plus Induction Rebate: Eligible consumers purchasing a Frigidaire 30” or 36” front control freestanding induction range may receive up to $300 for eligible countertop and/or cabinet modifications PLUS eligible electrical modifications required to support installation of the qualifying appliance. To qualify for reimbursements, the new appliance must be a qualifying Frigidaire front control freestanding induction range purchased from an authorized Frigidaire dealer in the United States during the promotion period. The new induction range must replace a radiant electric range with the same common industry width (30″ or 36″). Gas-to-induction conversions are not eligible for reimbursement under this program. All modifications must be directly related to installation of the qualifying appliance.

The Frigidaire Fit Promise Plus program does not cover: Appliance installation labor; gas-to-induction conversions; new home construction; kitchen remodels or renovation projects; relocation of cabinetry, countertops, gas lines, or electrical service; electrical service upgrades unrelated to installation of the qualifying appliance; permit fees, inspections, or other costs not directly related to installation of the qualifying appliance; or modifications unrelated to installation of the qualifying appliance. Electrical requirements vary by home. Consumers should consult a qualified installer or electrician to determine compatibility and installation requirements before purchase.

Eligible Modifications

Eligible modifications are limited to those reasonably necessary to install the qualifying appliance within the existing installation space, including qualifying countertop, cabinet, and electrical modifications. Countertop and cabinet modifications must be performed by a qualified contractor or installer. Electrical modifications must be performed by a licensed electrician where required by applicable law.

Reimbursement Limits

The program is intended solely to help offset eligible installation modification costs. Reimbursement is limited to the actual documented cost of eligible modifications, up to the maximum amounts stated above. Any costs exceeding the maximum reimbursement amounts are the consumer's responsibility.
