

Portable Induction Burner

FGIC13P3KS

1,300-Watt

Product Dimensions

Height	2-5/8"
Width	15-7/8"
Depth	11-7/8"

More Easy-To-Use Features

Exceptional Temperature Control
Adjust heat with greater accuracy than on gas or electric cooktops especially at lower settings.

Power Assist Function
Generates rapid heat for a faster boil.

Cooking Versatility
Gentle enough to melt chocolate and powerful enough to boil water, so it's great for entertaining or getting dinner on the table quickly.

Smoothtop Ceramic Glass Cooking Surface

Hot Surface Indicators

Signature Features

Reduce Cleanup Time
Our induction cooktop reduces clean-up time. It heats the pan, not the cooktop — so spills can't burn on.

More Energy Efficient
Cooking with induction is 70% more efficient than gas and 20% more efficient than electric.

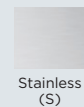

More Responsive
Cooking with induction is more responsive than gas or electric so you can easily go from simmer to boil.

Cookware Compatibility
Most stainless steel and cast iron cookware is compatible with induction elements. An easy rule of thumb: if a magnet sticks to the bottom of the cookware, it's induction-friendly.

Cooking Controls	
Control Location	Front
Cooktop Specifications	
Cooking Surface	Black Ceramic Glass
Center Element	Induction 8"-120/1,300
Hot Surface Indicator Light	Yes
Electrical Specifications	
Power Supply Connection Location	Right Rear
Voltage Rating	110/ 120V / 60Hz
Amps @ 120 Volts	13.0
Minimum Circuit Required (Amps)	15A
General Specifications	
Shipping Weight (Approx.)	10 Lbs.
